

Ahmed Elsayed Mohamed Hamed

Backend .Net

✉ ahmedelsayed2003aaa@gmail.com ☎ 01097220847 📍 Cairo 🔗 linkedin 🔄 Ahmed200379

PROFILE

I'm a backend developer with a strong focus on .NET Core, RESTful APIs, and database management. I enjoy solving complex problems, designing scalable architectures, and optimizing system performance. I also have a solid understanding of networking and security principles. Always looking to improve and learn new things, especially in communication and collaboration.

EDUCATION

Bachelor's degree in computer science and artificial intelligence

10/2021 – 06/2025

Benha University [🔗](#)

Youtube

iti 9 months tutorial, Metigator channel, passionate coders channel, devcreed channel

PROFESSIONAL EXPERIENCE

Training backend .NET

07/2023 – 09/2023

Information technology institute [🔗](#)

monofeya

Instructor

11/2023 – 10/2024

GDG

Benha

Web Designer

07/2024 – 09/2024

NTI

Benha

Training Asp.net

09/2024 – 10/2024

Information technology institute

smart village

SKILLS

Programming Language

C#, C++, Python, Java, Dart, javascript

Software Skills

advanced c# , Microsoft SQL server, LINQ, MVC, Restful APIs, Entity Framework, Jwt, unit test x , Aws, html, CSS, n-teir architecture, union architecture, Repository pattern ,singleton, flutter, bloc management, data structure, Algorithms, operating system, CCNA, MCSA

Soft Skills

- Team Work
- Problem Solving
- System Analysis

PROJECTS

Academy Guide [🔗](#)

11/2024 – 05/2025

A Scalable .NET Core 8 RESTful API for Academic Management | C#, EF Core, LINQ, JWT, SQL Server, 3-Tier Architecture, Unit of Work, Repository Pattern, Clean Code A structured and efficient academic management system that enables subject registration, a repository for materials, student activities, and a chatbot for academic assistance. Built with a focus on clean architecture, scalability, and security.

Game Zone [🔗](#)

09/2024 – 11/2024

A .NET Core 7 MVC-Based Gaming Platform | C#, EF Core, LINQ, Repository Pattern, Auth & Authorization, SQL, HTML, CSS, JavaScript, Bootstrap, jQuery A dynamic gaming platform built with .NET Core 7 and MVC architecture, implementing the Repository Pattern for better data management. Features authentication, authorization, and a responsive UI, ensuring secure access and an engaging user experience.

E-commerce Crud [↗](#)

09/2024 – 09/2024

A .NET 8 RESTful API with CRUD Operations | C#, EF Core, LINQ, Repository Pattern A simple and efficient e-commerce API providing CRUD operations . Built with .NET 8, using EF Core and LINQ for seamless database interactions.

Uber [↗](#)

05/2022

A Ride-Booking App Built with Flutter & Dart | Firebase, APIs maps , Authentication
